

# V4 (PVDF 70,000Da)

# Industrial UF Treated Membrane for Cathodic Paint Applications

# **RECOMMENDED OPERATING PARAMETERS**

Typical Operating Flux

5-35 GFD (8-60 LMH)

# Membrane Type

Synder Proprietary - PVDF Treated Membrane

Membrane Construction

Spiral-Wound with netted or fiberglass outerwrap

#### Maximum Temperature

Continuous Operation: 122°F (50°C)

Clean-In-Place (CIP): 110°F (43.3°C)

#### pH Range

Continuous Operation: 1-11 Clean-In-Place (CIP): 2-10.5

#### Maximum Pressure Drop

FRP Element: 35psi (241kPa) Net Wrap Element: 17psi (117kPa)

#### **Chlorine Tolerance**

180ppm maximum per cleaning cycle

## V-SERIES BENEFITS

- The V-Series has a proprietary hydrophilic charge to repel paint particles and promote maximum flux rates.
- The V-Series was specifically designed for processing cathodic paint, while the A6 is intended for processing anodic paint. V6 (PVDF 500kDa) is the most popular product for processing cathodic paint.
- Membrane only requires one cleaning chemical plus acid. No other additives required.
- Integrated end plugs allow for easy integration and removal.
- Synder maintains the largest E-Coat-devoted sales, engineering, and support staff of any membrane manufacturer in the world.

# CONTACT US

4941 Allison Parkway Vacaville, CA 95688 Phone: +1-707-451-6060 | Fax: +1-707-451-6064 Email: sales@synderfiltration.com | support@synderfiltration.com www.synderfiltration.com

All inquiries will be responded to by a Synder employee within 24 hrs.

1

CH = Flush Cut

HA = Version A

HC = For PVC Housing HS = Fiber Glass Shell w/net

### **TECHNICAL NOTES**

For element sizes not listed, please call or email Synder Filtration for details. We can design an element to fit your exact needs - just specify the element outer diameter (OD) or vessel/housing inner diameter (ID), element inner diameter (ID), and length. Elements are available with or without a controlled bypass tail. Additional feed spacers are also available.

Trials should be conducted to determine optimal application conditions.

Refer to installation, cleaning, and storage procedures for more details.

NOTE: Sometimes these designations may vary. Always consult Synder before ordering.

HB = For Stainless Steel Housing

BH = Permeate Tube Extensions

HK = UF with Integrated Housing
